LifeWise Cascade Select health plans are available through Washington Healthplanfinder if you live in one of the following counties: Adams, Benton, or Klickitat

## Understanding your health plan should be simple and easy.

Allowed amount: The amount we pay for healthcare services. When you receive services from in-network providers, you'll be responsible for cost shares (deductibles, copays, and coinsurance) and charges for services not covered by the health plan. In-network providers will not bill you for charges over the allowed amount. If you receive services from out-of-network providers, you are responsible for all amounts not paid by us.

**Cascade Care**: Qualified health plans designed by the Washington Health Benefit Exchange. These plans typically have lower deductibles and more benefits with copays. Cascade Care plans are available through the Exchange.

**Coinsurance:** Your percentage of the cost for a service. You pay 100% until your deductible is paid for the calendar year. After that, if your plan's coinsurance is 30%, you pay 30% of the allowed amount and your plan pays the other 70%.

**Copay:** This is a flat fee you pay for a specific service (such as an office visit) at the time you receive the service.

**Covered in full:** A benefit that does not require cost shares. You do not pay deductibles, coinsurance, or copays for services that are covered in full.

**Deductible:** The amount you pay in medical costs before your health plan begins to pay. Amounts over the allowed amount for the service do not count toward the deductible.

**Drug list:** A list, sometimes called a formulary, of drugs covered by the plan. Not all drugs are included in every drug list.

**Exclusive provider organization (EPO):** With this plan type, most services are only covered when received from in-network providers. Use the Find a Doctor tool on lifewisewa.com to find in-network providers.

**Federal poverty level (FPL):** A measure of household income, set by federal guidelines, used to determine if you are eligible for government subsidies to help pay for healthcare coverage purchased through the state or federal exchange.

#### **General exclusions and limitations**

Below is a list of some things that this health plan does not cover. A complete list of exclusions is available in the sample benefit booklets available on lifewise.com.

Benefits are not provided for treatment, surgery, services, drugs, or supplies for any of the following:

- Services that are not medically necessary
- Cosmetic surgery or reconstructive surgery (except as specifically provided)
- Experimental or investigational services
- Assisted reproduction
- Weight loss, including surgery, drugs, foods, and exercise programs
- Service in excess of specific benefit maximums
- Services payable by other types of insurance, such as property insurance, liability insurance, or motor vehicle insurance
- Services received when you are not covered by this plan
- Services that the provider's license or certification does not allow him or her to perform. It also does not cover a provider that does not have the license or certification that the state requires.
- Sexual dysfunction
- Sterilization reversal
- Services from out-of-network providers, except for emergency care

Some services, equipment, and drugs require prior authorization from Premera to be covered. For a list of services and procedures that require approval for coverage from your plan before you receive them (preapproval), visit lifewise.com. Health savings account (HSA): A savings account through a bank that is available to individuals who are enrolled in a qualified high-deductible health plan. The funds contributed to a health savings account are used to pay qualified medical expenses not covered by the health plan.

**High-deductible health plan (HDHP):** A health plan that meets IRS requirements for use with a health savings account. A high-deductible health plan requires you to meet the annual deductible before most services are covered.

**In-network:** Doctors, dentists, pharmacies, hospitals, and other healthcare providers that are contracted to provide services and supplies at negotiated amounts, called allowed amounts.

**Out-of-pocket maximum:** The maximum of allowed amounts you will pay for covered services from an in-network provider per calendar year. After you've met your out-of-pocket maximum, the plan pays 100% for in-network services for the rest of the year.

**Primary care provider (PCP):** The doctor or other healthcare provider you designate to provide most of your healthcare needs. You can choose a different primary care provider for each family member. Your primary care doctor can be a family practice physician, general practice provider, naturopath, geriatric practice provider, gynecologist, internist, nurse practitioner, obstetrician, pediatrician, or physician assistant.

**Urgent care:** Conditions that need treatment right away but are not severe or life threatening. For urgent conditions, care for an out-of-network provider is not covered.

Virtual care: Visit with a provider, such as a doctor or licensed therapist, by video or phone.

**Important note:** If you see a non-contracted provider, you will be responsible for the difference between the allowed amount and the provider's billed charges, in addition to the deductible, coinsurance, and any applicable copay. The allowed amount for a non-contracted provider is determined by LifeWise as described in your plan benefit book.
