LifeWise Health Plan of Washington

Open A1/Preferred A2 Formulary Drug List (A1/A2) Effective 01-01-2027

This document lists the generic, brand, and specialty drugs covered under your plan. It also shows whether your health plan applies any restrictions on those drugs, such as requiring our authorization before they're prescribed.

How to use this list:

Your drugs will fall into 2 tiers: Generic (1) and Brand (2).
Please see the chart on page 3 for information.

If you are unsure what plan you are on, check the front of your member ID card or call customer service at 800-592-6804 (TTY: 711), Monday through Friday, 5 am to 8 pm Pacific time.

How do I find a drug on the Formulary Drug List?

Drugs are listed by categories depending on the type of medical conditions they treat. If you know what your drug is used for, look for the category name in the list below. Then look under the category name for your drug.

If you're not sure what category to look under, you can also search for the drug in the index. The index provides an alphabetical listing of all the drugs included in this document. Next to the name of the drug in the index, you will see the page number where you can find coverage information. Go to the page listed in the index and find the name of your drug in the first column of the list.

How do I use the Open (A1) / Preferred (A2) Formulary Drug List?

Drug Name column

The first column of the chart lists the drug name. Generic drugs are in lower-case italics (such as *metformin oral tablet*). Brand-name drugs are capitalized (like JANUVIA).

Drug Tier column

The drug tier column will have either a 1 (*generic drugs*) or a 2 (BRAND-NAME drugs).

- *Generic drugs* - These drugs provide the same effectiveness, safety, and quality as brand-name drugs, but typically cost less.
- BRAND-NAME drugs – These drugs are generally more expensive than generic drugs.

The amount you pay for a covered drug will depend on if you have met applicable deductible for the plan year, if you have met any applicable out-of-pocket maximum for the plan year, and what tier the medication is on.

More information on your deductible and maximum out-of-pocket limit can be found in your member booklet.

Open (A1) Drug list

Drug Tier	Includes
Generic (1)	Tier 1 is the lowest tier and includes generic drugs. Generic drugs are as effective, safe, and high quality as their brand-name counterparts, yet less expensive.

Preferred (A2) Drug list

Drug Tier	Includes
Generic (1)	Tier 1 is the lowest tier and includes generic drugs. Generic drugs are as effective, safe, and high quality as their brand-name counterparts, yet less expensive.
Brand (2)	Tier 2 includes preferred brand drugs. Considered “preferred” when there is no generic, and/or because of their value and effectiveness.

Requirements/ Limits column

The information in the Requirements/ Limits column tells you if there are any special requirements or limits for coverage of your drug. See the Abbreviations and Explanation of Coverage chart below.

Drugs subject to these restrictions will generally mean that your doctor or healthcare provider needs to request approval and provide additional information on your medical condition before the drug will be covered. Information on this process is on our website on the Drugs Requiring Approval page.

Abbreviations and Explanation of Coverage

Abbreviation	Requirements or Limits for coverage	Explanation
ACA PV	Affordable Care Act (ACA) Preventive Medication	ACA preventive drugs are prescription and over-the-counter medications that the Affordable Care Act (ACA) requires to be covered at 100% with $0 cost-sharing (no deductible or copay). These drugs are intended to prevent disease or health conditions in individuals with specific risk factors, based on recommendations from the U.S. Preventive Services Task Force (USPSTF) recommendation of grade “A” or “B.” The USPSTF recommendations are sometimes age-specific or for a limited quantity.
AGE	Age Limit	This drug is limited to certain age ranges consistent with Food and Drug Administration (FDA) guidelines. The prescription is covered if your age is within that range. For example, Drug A is limited to individuals aged 2 through 5.
HCLV	High Cost, Low Value	Certain drugs aren’t covered under your specific plan if a lower-cost generic or therapeutic equivalent is available. Please refer to the applicable benefit plan to determine benefit availability and the terms, conditions, and limitations of coverage.
LA	Limited Access	Limited access drugs are drugs where the FDA has either restricted distribution or if they require special handling, provider coordination, or patient education that cannot be met by a retail pharmacy. Your benefit may require that you fill these drugs at an in-network specialty pharmacy.

NP	Non-Preferred	These are typically high-cost brand-name drugs that often require prior authorization. A non-preferred drug is a prescription medication that is covered by your pharmacy plan but is not on the preferred list. This means that it usually has a high copay or coinsurance (the percentage of healthcare costs you're responsible for). There are more affordable alternatives available, called preferred drugs. Talk to your provider to see if there is a preferred drug that is right for you.
PA	Prior Authorization	Your doctor must submit a prior authorization to us before you can fill a prescription for this drug. Without prior authorization, this drug may not be covered.
OCh	Oral Chemotherapy	Certain oral chemotherapy drugs may be covered under your medical plan.
OPT	Optional Benefits	Many health plans exclude drugs for erectile dysfunction (ED), fertility, and weight management. Please refer to the applicable benefit plan to determine benefit availability and the terms, conditions, and limitations of coverage. For questions about benefit information, contact customer service at the number on the back of your member ID card.
QL	Quantity Limit	Some drugs have a cap on the amount (number of pills, bottles, or patches) covered within a specific period. For example, we will cover 18 tablets per 30-day supply. These guidelines are for safety reasons (preventing overuse or misuse), reducing waste, and controlling high costs, based on FDA guidelines.
SP	Specialty Pharmacy	In general, specialty drugs are typically used to treat chronic, complex, or rare conditions. They may require special handling, like refrigeration, and may require enhanced clinical support. Specialty pharmacy drugs are generally limited to a one-month supply.
ST	Step Therapy	These drugs require that you first try a preferred (or covered) drug on the drug list to treat your medical condition. The step therapy drug is considered non-preferred and may only be covered if the preferred drug doesn't work for you. Your provider must submit a prior authorization for the non-preferred drug before the prescription can be filled.

How is the list of covered drugs developed?

The formulary drug list is developed with an independent committee of doctors, pharmacists, and other healthcare providers called the Pharmacy and Therapeutics Committee. This independent committee reviews and selects drugs for coverage based on each drugs safety, effectiveness, and cost.

The committee meets regularly to review new drugs on the market to determine their placement on this list. They also review new safety, effectiveness, and cost information for existing drugs on the list to ensure the drug list remains up to date with current medical evidence.

Will the A1/Preferred A2 Formulary Drug List change?

This drug list is updated throughout the year. If you're taking a drug that will be removed from the drug list or moved to a higher cost-sharing tier, we will send you a letter notifying you of this change. We also post information on upcoming drug list changes on the Drug List Changes page.
