Title	Preadmission Testing		
Number	CP.PP.406.v1.6		
Last Approval Date	07/08/24	Original Effective Date	01/01/18
Cross Reference			

Coverage of any service is determined by a member’s eligibility, benefit limits for the service or services rendered and the application of the Plan’s Medical Policy. Final payment is subject to the application of claims adjudication edits common to the industry and the **Plan’s professional or facility services claims coding policies**. Reimbursement is restricted to the provider’s scope of practice as well as the fee schedule applicable to that provider.

Purpose	To define how the Plan identifies preadmission testing services rendered in an outpatient setting, prior to an inpatient admission at the same hospital, that are submitted on a UB-04/CMS-1450 paper claim form or an 837I electronic claim form.
Scope	Applies to all Premera Blue Cross, Premera Blue Cross Blue Shield of Alaska, LifeWise Health Plan of Washington, LifeWise Assurance Company, and Premera Blue Cross HMO lines of business and products.
Definitions	<p><u>3-Calendar Day Payment Window/72-Hour Rule:</u> The time period consisting of the day of admission and three calendar days preceding the date of an inpatient admission which will include the 72-hour time period that immediately precedes the time of admission but may be longer than 72 hours</p> <p><u>Preadmission Testing:</u> Any diagnostic or non-diagnostic service(s) related to a patient’s inpatient admission, performed on the day of the inpatient admission or within the prior three calendar days which will include the 72-hour period that immediately precedes the time of an inpatient admission</p> <p><u>Diagnostic Services:</u> A service that is an examination or procedure performed on a patient in a hospital outpatient setting, to obtain information to aid in the assessment of a medical condition or the identification of a disease. Examples include, but are not limited to, blood chemistry, diagnostic x-rays, isotope studies, electrocardiograms, pulmonary function tests, thyroid function tests, and any other test given to determine the nature and severity of an ailment or injury</p> <p><u>Non-Diagnostic Services:</u> A service that is provided within the prior three calendar days which will include the 72-hour period that immediately precedes the time of admission, and which are related to the reason for the patient’s inpatient admission regardless of whether the inpatient and outpatient diagnoses are the same</p> <p><u>Related Services:</u> Services associated with the reason for the patient’s admission</p>
Policy	The Plan considers all related diagnostic and non-diagnostic services (preadmission testing) provided by an admitting hospital on the date of an inpatient admission or within three calendar days preceding the date of an inpatient admission which includes the 72-hour period that immediately precedes the time of admission to be considered part of/incidental to the inpatient admission hospital claim and not separately billable or reimbursable when billed on a separate outpatient facility claim.

These related services that are rendered within the three-calendar day window or immediate 72-hour period prior to admission must be billed on the same claim as the inpatient admission.

Non-Related Services

Any services that are rendered within the three-calendar day window or the immediate 72-hour period prior to admission that are **unrelated** to a planned inpatient admission should be billed on a separate outpatient facility claim and must be identified by using *Condition Code 51-Attestation of Unrelated Outpatient Non-Diagnostic Services* in Field Locator 18-28 of the UB-04 claim form.

Unplanned Inpatient Admissions via Emergency Room

Any services that are rendered on the date of an unplanned inpatient admission as part of an emergency room visit that leads to the unplanned inpatient admissions should be included on the inpatient admission claim. Such an unplanned emergency inpatient admission should be identified using *Admission Type Code 1-Emergency* in Field Locator 14 of the UB-04 claim form.

Emergency room visits that occur within three calendar days or the immediate 72 hours prior to an inpatient admission that are **diagnostically related to the inpatient admission** will be considered part of the inpatient admission and denied separate reimbursement when billed on a separate outpatient facility claim.

Exclusions

The following outpatient services will be considered excluded from the three-calendar day window/immediate 72 hours if they are not part of a diagnostic service, an emergency room visit, or related to a procedure which resulted in an inpatient admission:

- Ambulance services
- Maintenance renal dialysis
- Chemotherapy
- Outpatient surgery
- Radiation therapy
- Blood/RX products
- Physical, occupational and speech therapies
