Title	**Modifier 53 – Discontinued Procedure**		
Number	**CP.PP.236.v3.0**		
Last Approval Date	01/08/25	**Original Effective Date**	01/01/05
Cross Reference	• *Modifier 73 – Discontinued Outpatient Hospital/Ambulatory Surgery Center Procedure Prior to Administration of Anesthesia* • *Modifier 74 – Discontinued Outpatient Hospital/Ambulatory Surgery Center Procedure After Administration of Anesthesia*		

Coverage of any service is determined by a member's eligibility, benefit limits for the service or services rendered and the application of the Plan's Medical Policy. Final payment is subject to the application of claims adjudication edits common to the industry and the **Plan's professional or facility services claims coding policies**. Reimbursement is restricted to the provider's scope of practice as well as the fee schedule applicable to that provider.

Purpose	To define when the Plan recognizes services appended with modifier 53 that are submitted on a CMS 1500 paper claim or 837P electronic claim form.
Scope	Applies to all Premera Blue Cross, Premera Blue Cross Blue Shield of Alaska, LifeWise Health Plan of Washington, LifeWise Assurance Company, and Premera Blue Cross HMO lines of business and products.
Policy	The Plan recognizes Modifier 53-*Discontinued Procedure* when appended to a **professional service** to indicate that a surgical or diagnostic medical procedure was either terminated or was discontinued **after** induction of anesthesia due to extenuating circumstances beyond the control of the physician, the other qualified healthcare professional, or those circumstances that may affect the life of the patient. Medical records for the member **must document** why the procedure was discontinued and at what point in the surgery the procedure was discontinued. Modifier 53 is not appropriate to be appended to the following: • an **elective** cancellation of a procedure prior to the administration of anesthesia or surgical preparation in the operating suite; • Evaluation and Management (E&M) codes; • unlisted procedure codes; • time-based procedure codes; • when there is a more appropriate/lesser procedure code that describes the portion of the procedure that **was** completed; or • any ASC facility or Outpatient facility service. For discontinued ASC and outpatient facility services, append one of the following modifiers to the discontinued procedure code: • 73- *Discontinued Outpatient Hospital/Ambulatory Surgery Center Procedure Prior to Administration of Anesthesia* or • 74- *Discontinued Outpatient Hospital/Ambulatory Surgery Center Procedure After Administration of Anesthesia* Reimbursement for procedures appended with modifier 53 will be adjusted to reflect 33% of the provider's applicable fee schedule allowed amount.

Violations of Policy	Violations of this policy by any party that enters a written arrangement with the Plan may result in increased auditing and monitoring, performance guarantee contractual penalties and/or termination of the contract. Disciplinary actions will be appropriate to the seriousness of the violation and shall be determined in Plan's sole discretion. Violations of this policy may be grounds for corrective action, up to and including termination of employment.
